

A language is a different vision of life"

PeopleEnglish makes this vision easy to achieve

Business Communication

We help companies analyse the language skills their staff need, assess their current English language communication skill, investigate the best methods to provide training and communication support, and then enable them to achieve their objectives through tailored and effective English language training.

Learn English the Cambridge way from Cambridge certified experts using Cambridge methodology and curriculum adhering to the Common European Framework (CEFR).

Choose from an array of courses that will help your employees improve their English speaking, writing, reading and listening skills, grammar and vocabulary.

Enhance your talent acquisition by using the Business Language Testing Service (BULATS)

Get employees to appear for the Business English Certificate (BEC), International Legal English Certificate (ILEC) or International Certificate in Financial English (ICFE) as appropriate.
